Specification

EDM-3200-D323A

Electro-dynamic Vibration Testing System (Air Cooled)

Features

- · Double Field Magnetic Circuit Design
- · Advanced shaker trunnion isolation design
- Dedicated dynamic auto-centering control
- Latest SiC-FET technique based power amplifier, modularized power module with higher switching frequency range, SNR and more safety
- · Smarter remote control on power amplifier thru Ethernet connectivity
- · System MTBF > 6,000 Hours
- Flexible vibration isolation design for foundation based installation or foundation-free based installation by pneumatic isolators
- . Opertional head expander, slip table, chamber thermal barrier
- . Opertional motor-driven shaker rotating mechanism (for slip table)

Performances

Shaker Model	EDM-3200
Rated Sine Force	32 kN
Random Force (rms)	22.4 kN
Shock Force	64 kN
